

Use place value grid to divide 100 by 5.

Tens	Ones

$100 \div 5 = \underline{20}$

Use place value grid to divide 100 by 4.

Tens	Ones

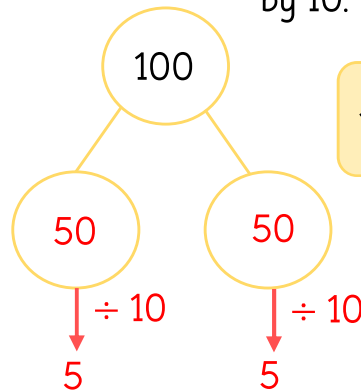

$100 \div 4 = \underline{25}$

Use partitioning method to divide 100 by 2.

$100 \div 2 = \underline{50}$

Use partitioning method to divide 100 by 10.

$100 \div 10 = \underline{10}$

Use a 100 square to divide 100 by 4.

$100 \div 4 = \underline{25}$

Use a 100 square to divide 100 by 10.

$100 \div 10 = \underline{10}$

Do you notice any patterns?

$$100 \div 2 = 50$$

Double

Half

$$100 \div 4 = 25$$

$$100 \div 5 = 20$$

Double

Half

$$100 \div 10 = 10$$

$$100 \div 4 = 25$$

Half

Double

$$100 \div 2 = 50$$

$$100 \div 10 = 10$$

Half

Double

$$100 \div 5 = 20$$

Fill in the missing numbers.

$$100 \div 2 = 25 + 25$$

$$100 \div 5 = 30 - 10$$

$$100 \div 4 = 10 + 15$$

$$100 \div 10 = 15 - 5$$
